REMARKS/ARGUMENTS

Favorable reconsideration of this application, as presently amended and in light of the following discussion, is respectfully requested.

The application has been indicated as being in condition or allowance except for formal matters wherein Figs. 22 and 24 have been objected to and the specification and claims have also been objected to as containing informalities.

In response to the foregoing objections to the drawings, specification and claims, substituted Figures 22 and 24 are submitted herewith which are properly labeled as "PRIOR ART". In addition, appropriate amendments have been made to the specification and claims based upon the suggestions made by the Examiner. In addition, since a review of the specification and claims indicated that minor additional changes to the same were needed, such as been included in this amendment.

In view of the foregoing, an early and favorable Office Action is believed to be in order and the same is hereby respectfully requested.

Respectfully submitted,
